WEATHER PERMITTING, CREWS ARE SCHEDULED TO REOPEN BROADWAY BLVD MID TO LATE THE WEEK OF JAN. 31-FEB. 4, 2022.

Daytime temperatures need to be at least 50 degrees for paving. Depending on the weather, crews will install temporary or permanent striping so Broadway can reopen.

CONSTRUCTION IS CONTINUING: Please note that the project is not complete.

There may be some **single-lane closures on southbound Broadway north of Lomas Blvd** so crews can complete demolition of the old pump station and haul away materials as well as finish construction in other areas. However, these activities should have minimal traffic impacts.

Access will be maintained to all residents and businesses as crews work to complete this project.
